

Remote Mac Login:

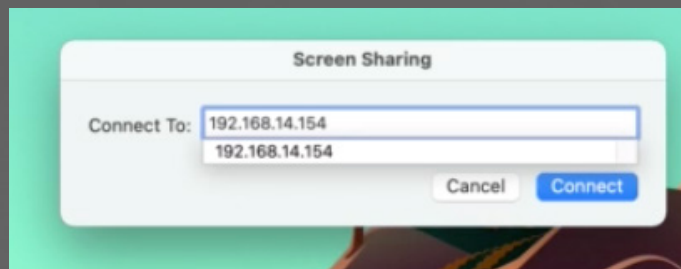

(THIS ONLY WORKS ON CAMPUS)

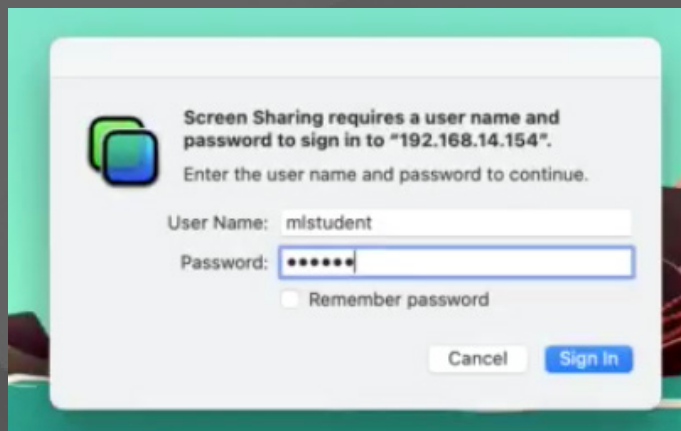

1. On the desktop, click the magnifying glass at the top of the screen, or press **comm + space**, to open the search box. In the search box type screen sharing, and it should be the first on the list.

2. When going to screen sharing it's going to ask for the IP address for the Mac you are trying to connect to. The IP address is: 192.168.14.154. Then press "Connect."

Now another dialogue box will pop up asking for the username and password of that Mac. Which is: mlstudent (username) and 123456 (password).

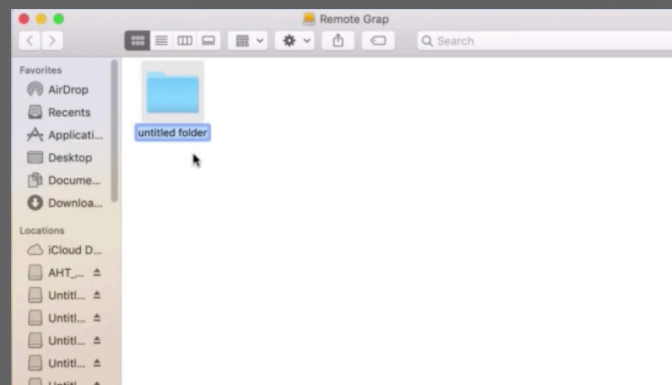

4. Then it will connect to the Mac Computer. If you are on the login screen of the computer, just simply login as normal by going to the mlstudent and typing in the password (it's the same).

5. You can now operate the Mac basically as you normally would. There is a drive where you can save called “Remote Graph” (but for some reason it might be called remote gra 

6. Make sure you name these files as your name.

7.  When you are done, just go to the Apple symbol and log out normally.

 Then press “Quit Screen Sharing” when you are logged out.
